

CERT 11-07
March 16, 2007
PUBLIC NOTICE

S. C. DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
COASTAL ZONE MANAGEMENT CONSISTENCY CERTIFICATION

In accordance with the S. C. Coastal Zone Management Act of 1977, as amended, Chapter V, S. C. Coastal Zone Management Program Document and the S. C. Administrative Procedures Act, the following projects have been received for determination of consistency with the S. C. Coastal Zone Management Program. Information on the Projects is available for public inspection at the:

*Office of Ocean and Coastal Resource Management
S. C. Department of Health and Environmental Control
1362 McMillan Avenue, Suite 400
Charleston, South Carolina 29405*

Comments must be received within ten days of the date of this public notice by March 26, 2007. The following projects are listed by project name or applicant, location, type of activity, type of permit, and permitting agency (see attached list of abbreviations and keys):

Berkeley County

O'Charley's-Summerville Center, ID# 08-01-08-02A, Permit Number SCR10F647, TMS# 221-00-00-136, located at 315 Azalea Square Boulevard, Summerville, OCRM (SW)
Old Highway 52 Storage, ID# 08-07-03-05, Permit Number SCR10F628, TMS# 211-00-02-020, located off of old 52 Highway, Mount Holly, OCRM (SW)

Charleston County

Belle Hall Gardens, ID# 10-99-10-19A, Permit Number SCR10F607, TMS# 540-00-00-002, WW/WS, SCDHEC# 3449/57921, located at 620 Long Point Road, Mt. Pleasant, OCRM (SW) (WW/WS)
Orange Grove Elementary School, Phase 1, ID# 10-00-05-06A, Permit Number SCR10F658, TMS# 352-06-00-048, located at 1225 Orange Branch Road, OCRM (SW)
Pittsburg Avenue Roadway Improvements, ID# 10-05-02-07D, Permit Number SCR10F550, TMS# N/A, located north of Cherry Hill Lane east of North Meeting Street, North Charleston, OCRM (SW)
Carolina Park, Phase 1 & 2, ID# 10-05-04-07D, Permit Number SCR10F661, TMS# 540-00-00-035, WW/WS, SCDHEC# 29546/57989, located off US Highway 17 North, Mount Pleasant, OCRM (SW) (WW/WS)
Town of Mount Pleasant Track @ Park West, ID# 10-06-04-18A, Permit Number SCR10F654, TMS# 598-00-00-045, WW/WS, SCDHEC# 27627/57974, located at 1251 Park West Boulevard, Mount Pleasant, OCRM (SW) (WW/WS)
Ingleside Plantation Apartments, ID# 10-07-02-13, Permit Number SCR10F512, TMS# 393-00-00-007, WW, SCDHEC# 38348/57936, WS, SCDHEC# 38348/57937, located south of intersection of Blue House Road and Highway 78, North Charleston, OCRM (SW) (WW/WS)
Mercury Air Centers-Johns Island FBO, ID# 10-07-03-06, Permit Number SCR10F638, TMS# 319-00-00-014, located 1000' of Fort Trenholm Road at the Johns Island Airport, OCRM (SW)
Ashley River Elementary School, Phase 1, ID# 10-07-03-08, Permit Number SCR10F659, TMS# 351-10-00-046, & 047, located at 1871 Wallace School Road, OCRM (SW)

Colleton County

Cottageville Baptist Church Site Improvements, Permit ID# 15-07-03-01, Permit Number SCR10F650, TMS# 152-00-00-029, located 750 feet East of Bama Road along Cottageville Highway, Cottageville, OCRM (SW)

Dorchester County

Knights Septic Tank, ID# 18-07-02-04A, Permit Number SCR10F589, TMS# 122-00-144, located off of Thorp Road and Hodge Road, OCRM (SW)
Blackberry Creek Gas Main Extension, ID# 18-07-02-05, Permit Number SCR10F629, TMS# 128-00-00-164, 001, 084, 069, & 121-00-00-061, 072, located at the intersection of Dorchester Road and Mallard Road, OCRM (SW)
Corporation Storage, ID# 18-07-03-02, Permit Number SCR10F646, TMS# 130-10-00-027, 028, 087, & 089, located off of US Highway 78, Summerville, OCRM (SW)
SC Federal Credit Union Site @ Highway 17A and 9th Street, ID# 18-07-03-03, Permit Number SCR10F657, TMS# 130-16-00-003, WW, SCDHEC# 38447/57981, located on the north corner of Highway 17A and 9th Street, Summerville, OCRM (SW) (WW)
Welby's Construction Materials, LLC/Powder Horn Mine, SCDHEC# 38347/57929, located off of Grant Road, OCRM (Mine)

Georgetown County

Peru Plantation, ID# 22-07-03-02, Permit Number SCR10F634, TMS# 00-1006-019-00-00, 01-00, 03-00, & 04-00, WW/WS, SCDHEC# 38367/57940, located at the intersection of Peru Drive and David Ray Road, OCRM (SW) (WW/WS)
Cooper Farm, Phase 1, ID# 22-07-03-03, Permit Number SCR10F652, TMS# 02-1006-015-03-00, WW, SCDHEC# 38427/57967, WS, SCDHEC# 38427/57968, located at the intersection of Highway 701 and Six Mile Creek, OCRM (SW) (WW/WS)

Horry County

Wild Wing, Phase 2, ID #26-06-05-23A, Permit Number SCR10F619, TMS#151-00-04-019, located off of U. S. Highway 501 and Wild Wing Boulevard, 5 miles east of Conway, OCRM (SW)
Towers On The Grove, ID #23-07-03-05, Permit Number SCR10F642, TMS#145-05-48-001 thru 003 and 145-05-51-008 & 009, located at 2100 N Ocean Boulevard, North Myrtle Beach, OCRM (SW)
King Farm, ID # 26-07-03-06, Permit Number SCR10F648, TMS# 095-00-02-032, WW/WS, SCDHEC# 38407/57959, located at the NW Intersection of SC 319 and King Farm Road, OCRM (SW) (WW/WS)
Pine Meadows Subdivision, ID# 26-07-03-07, Permit Number SCR10F651, TMS# 089-00-01-084, WW/WS, SCDHEC# 38408/57965, located off of Pine Needle Road, approximately. 3500' West of Highway 9, Longs, OCRM (SW) (WW/WS)

Jasper County

Grahamville Farms, Permit ID# 27-06-10-05, Permit Number SCR10F663, TMS# 063-38-02-023, 063-33-04-003 and 063-34-03-001, SCDHEC# 38488/57997, located at Bees Creek Road and SC-S-27-13, Ridgeland, OCRM (SW) (WW/WS)
Tradition Gas Line Feeder, ID# 27-07-03-01, Permit Number SCR10F655, TMS# 042-00-06-042, 042-00-04-030, & 041-00-03-034, located off of US Highway 278 and Brickyard Road, Hardeeville, OCRM (SW)
Case Dealership, Permit ID# 27-07-03-02, Permit Number SCR10F662, TMS# 040-00-02-099, SCDHEC# 38487/57993, located off of US Highway 17 and Strain Place, Hardeeville, OCRM (SW) (WS)
Palmetto Park of Commerce, Phase 1A & 1B, Permit ID# 27-07-03-03, Permit Number SCR10F665, TMS# 029-00-04-002, SCDHEC# 38489/56000, located on the West side of Stiney Road, Hardeeville, OCRM (SW) (WS)

PUBLIC NOTICE OF APPEAL

TO: All Interested Parties
FROM: S.C. Department of Health and Environmental Control
SUBJ: Tim Burke, OCRM-06-229-F
DATE: March 16, 2007

The Department has issued a permit to Tim Burke for a private dock on and adjacent to Simpson Creek at 855 Targave Road in the Clarks Point Subdivision on James Island, Charleston County, South Carolina.

Karen Bennett has requested a contested case hearing before the Administrative Law Court.

Intervenors: A motion for leave to intervene, with the \$25 filing fee, shall be filed with the South Carolina Administrative Law Court, Edgar A. Brown Building, 1205 Pendleton Street, Suite 224, Columbia, South Carolina 29201, (telephone 734-0550) and served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of the intervention on the proceedings. A proposed answer or position in intervention shall be attached to the motion.

Any person may intervene in any pending contested case hearing upon a showing that:

- (1) the movant will be aggrieved or adversely affected by the final order;
- (2) the interests of the movant are not being adequately represented by existing parties, or that it is otherwise entitled to intervene;
- (3) that intervention will not unduly prolong the proceedings or otherwise prejudice the rights of existing parties.

The motion for leave to intervene shall be filed as early in the proceedings as possible to avoid adverse impact on the existing parties or the disposition of the proceedings. Unless otherwise ordered by the administrative law judge, the motion to intervene shall be filed at least twenty (20) days before the hearing. Any later motion shall contain a statement of good cause for the failure to intervene earlier.

A person granted leave to intervene is a party to the proceeding. The intervenor shall be bound by any agreement, arrangement or other matter previously determined in the case. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding. If appropriate, the administrative law judge may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings.

SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

March 16, 2007

Permit Number: OCRM-07-046-M
Permit ID: 57925

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Samuel W. Van Norte
8105 Rosa Scott Rd
Edisto Island, SC 29438

LOCATION: On and adjacent to Whooping Island Creek at 0 Rosa Scott Rd, Tract A, Edisto Island, Colleton County, South Carolina. TMS#: 065-00-00-030.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the structure will have a 4' by 272' walkway, with handrails, leading to a 12' by 24' covered fixed pierhead with handrails, electricity and water. Ebbside of the pierhead, a ramp will access a 10' by 30' floating dock. The applicant also proposes to install a 12' by 12' four-pile boatlift floodside of the proposed fixed pierhead. The purpose of the activity is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

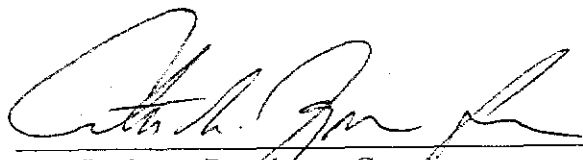

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

March 16 2007

Permit Number: OCRM-07-053-M
Permit ID: 57740

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Kate Elis Huey
C/O Cox Marine
3420 Maybank Hwy.
Johns Island, SC 29455

LOCATION: On and adjacent to Adams Creek at Lot 5-A, Hart Road, Wadmalaw Island, Charleston County, South Carolina. TMS#: 150-00-00-027.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the structure will consist of a 4' by 56' walkway, with handrails, that will lead to an existing 5' wide dock platform. Beyond the dock platform, an additional 4' by 29' section of walkway, with handrails, will lead to an access ramp and a 10' by 30' floating dock. The applicant also proposes to install a 12' by 12' floating boatlift on the upstream landward side of the proposed floating dock. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

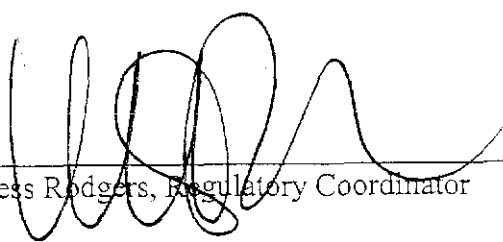

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

NO PORTION OF THE DOCK IS TO BE CONSTRUCTED AS TO EXTEND BEYOND 1/4 OF THE CREEK WIDTH AS MEASURED FROM SHORELINE TO SHORELINE. THE DOCK OR ANY BOAT MOORED AT THIS DOCK DOES NOT IMPEDE OR UNDULY RESTRICT NAVIGATION AT ANY STAGE OF THE TIDE CYCLE. ALL PORTIONS OF THE DOCK ARE CONSTRUCTED AS TO REMAIN A MINIMUM OF 20' OFF OF THE ADJOINING EXTENDED PROPERTY LINES.

PROPOSED DOCK FROM EXISTING DOCK

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

March 16, 2007

Permit Number: OCRM-07-054-M
Permit ID: 57741

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: John Huey
C/O Cox Marine
3420 Maybank Hwy.
Johns Island, SC 29455

LOCATION: On and adjacent to Adams Creek at Lot 5-B Hart Road, Wadmalaw Island, Charleston County, South Carolina.
TMS#: 150-00-00-184.

WORK: The work as proposed and shown on the attached plans consists of making additions and modifications to an existing dock. Specifically, the applicant proposes to replace an existing section of dock channelward of a 5' dock platform with a 4' by 29' section of walkway, with handrails, which will lead to a 10' by 30' floating dock. The applicant also proposes to install a 12' by 12' floating boatlift landward of the proposed floating dock. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

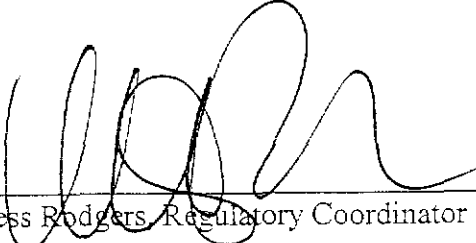

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

March 16, 2007

Permit Number: OCRM-07-059-M
Permit ID: 57808

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Laura McKenzie
C/O Watersdeep Inc
PO Box 12880
Charleston, SC 29412

LOCATION: On and adjacent to Bohicket Creek at 3775 Maybank Hwy, Johns Island, Charleston County, South Carolina. TMS#: 279-00-00-315.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the structure will have a 4' by 220' walkway leading to a 10' by 20' covered fixed pierhead, both with handrails. On the downstream side of the pierhead a 3' x 20' access ramp will lead to an 8' by 20' floating dock. An additional 3' x 20' access ramp and an 8' by 30' floating dock will be installed on the upstream side of the proposed pierhead. The applicant also proposes to install a 12.5' by 12.5', four-pile boatlift on the upstream end of the proposed 8' by 30' floating dock. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

March 16, 2007

Permit Number: OCRM-07-063-F
Permit ID: 57840

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Nicholas Palassis
C/O George A. Z. Johnson, Jr., Inc.
6171 Savannah Hwy.
Ravenel, SC 29470

LOCATION: On and adjacent to Wappoo Creek at 2024 Wappoo Hall Rd., James Island, Charleston County, South Carolina. TMS#: 343-02-00-156.

WORK: The work as proposed and shown on the attached plans consists of modifying an existing dock. Specifically, the applicant seeks to construct a 4' x 36.5' walkway leading to a 4' x 6.3' fixed pierhead, both with handrails on one side. Channelward, a 4' x 20' ramp will lead to an 8' x 50' floating dock. Ebbside of the floating dock, a 3' x 14' catwalk will access a 12.5' x 14', four-pile boatlift. Also, four 12" square concrete mooring piles will be installed as diagramed in the plan view drawing. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

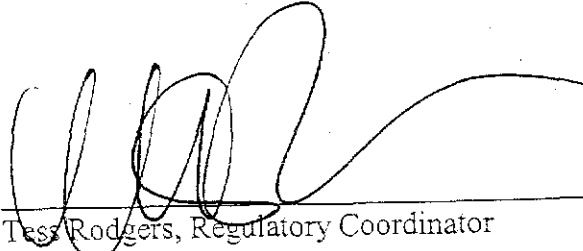

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Amanda Flake at 843-953-0258.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

March 16, 2007

Permit Number: OCRM-07-066-R
Permit ID: 57905

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Byron Gathright
C/O John E Wade Jr
PO Box 686
Isle of Palms, SC 29451

LOCATION: On and adjacent to Dewees Inlet at 113 Dewees Inlet Dr, Dewees Island, Charleston County, South Carolina. TMS#: 608-14-00-002.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. The applicant seeks to build a 6' x 650' walkway leading to a 20' x 20' pierhead. Floodside of the pierhead, a 4' x 16' ramp will access a 10' x 30' floating dock. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

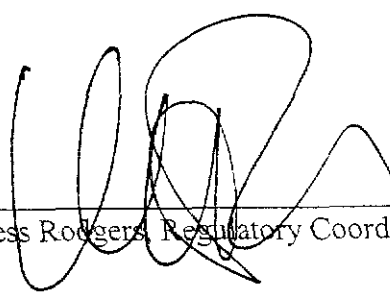

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Tess Rodgers at 843-953-0233.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

March 16, 2007

Permit Number: OCRM-07-067-M
Permit ID: 57895

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Tom Moore
C/O Cox Marine
3420 Maybank Hwy.
Johns Island, SC 29455

LOCATION: On and adjacent to Bohicket Creek at 2750 (Lot 48) Jenkins Point Road, Seabrook Island
Charleston County, South Carolina. TMS#: 149-00-00-070.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the structure will have a 4' by 558' walkway leading to a 5' by 10' fixed pierhead, both with handrails. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

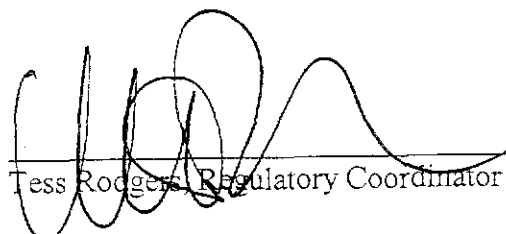

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

March 16, 2007

Permit Number: OCRM-07-068-F
Permit ID: 57942

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Keith Schemm
C/O Dock & Marine
PO Box 12699
Charleston, SC 29422

LOCATION: On and adjacent to Stono River at Lot 4 Grimball Farms Lane., Charleston, Charleston County, South Carolina. TMS#: 334-03-00-023.

WORK: The work as proposed and shown on the attached plans consists of replacing an existing dock. Specifically, the applicant seeks to replace the existing 4' x 162' walkway and have it lead to a 10' x 15' covered pierhead. Channelward of the pierhead, a ramp will lead to a 10' x 20' floating dock. Channelward and Floodside of the pierhead, a 3' x 12.5' catwalk and 12.5' x 13', four-pile boatlift are proposed. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

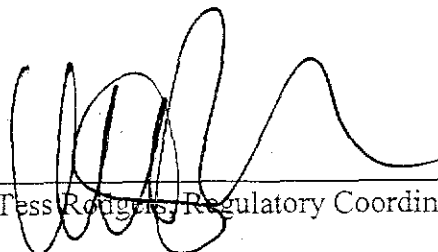

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Amanda Flake at 843-953-0258.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

March 16, 2007

Permit Number: OCRM-07-069-M
Permit ID: 57939

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Henry L. Smith, Jr.
C/O American Dock & Marine
1533 Folly Road, D-5
Charleston, SC 29412

LOCATION: On and adjacent to Shark Hole Creek at 4627 Westervelt Road, Meggett, Charleston County, South Carolina.
TMS#: 193-00-00-008.

WORK: The work as proposed and shown on the attached plans consists of making modifications and additions to an existing dock. Specifically, the applicant proposes to replace and relocate an existing 8' by 36' floating dock 11' channelward of the present location. The applicant also proposes to install a 12' by 12', four-pile boatlift on the upstream end of the relocated floating dock. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

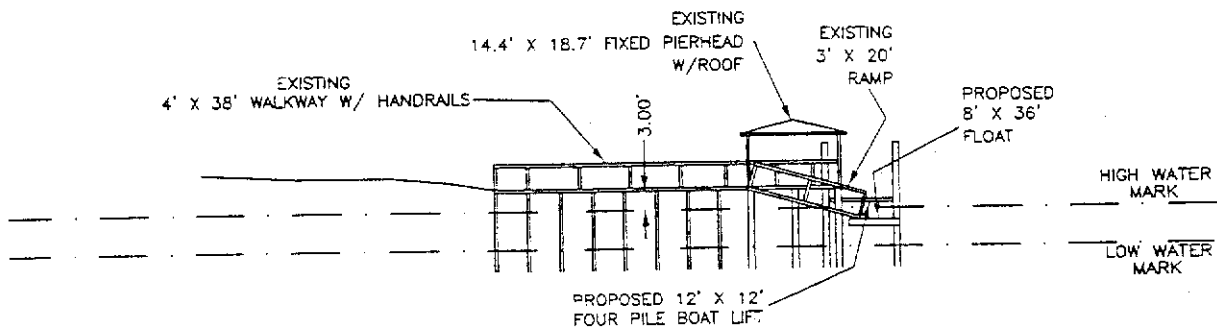

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

March 16, 2007

Permit Number: OCRM-06-566
Permit ID: 56901

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Richard Smith
c/o Dr. H Wayne Beam
PO Box 11863
Columbia, SC 29211

LOCATION: On and adjacent to Parsonage Creek at 4330 Hwy 17 Bus Lot A, Murrells Inlet,
Georgetown County, South Carolina.
TMS#: 41-0118-091-00-00.

WORK: The work as described and shown on attached plans, consists of constructing a floating dock. A 3' x 15' access ramp will lead to a 10' x 15' floating dock. To the left of the floating dock, a 10' x 14' covered boatlift is proposed. The work, as described, is for the applicant's private recreational use. **Please note** - the proposed activity is a candidate for the Army Corps of Engineers General Permit, 2006-10-001.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Tanitra S. Marshall at 843-238-4528.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

March 16, 2007

Permit Number: OCRM-06-567
Permit ID: 56903

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Richard Smith
c/o Dr. H. Wayne Beam
PO Box 11863
Columbia, SC 29211

LOCATION: On and adjacent to Parsonage Creek at 4330 Hwy 17 Business Lot B, Murrells Inlet,
Georgetown County, South Carolina.
TMS#: 41-0118-090-00-00.

WORK: The work as described and shown on attached plans consists of constructing a dock. A 3' x 15' access ramp will lead to a 10' x 15' floating dock. The applicant also seeks to build two 10' x 14' covered boatlifts to be located on each side of the floating dock. The work as described is for the applicant's private recreational use. Please note - the proposed activity is a candidate for the Army Corps of Engineers General Permit, 2006-10-001.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Tanitra S. Marshall at 843-238-4528.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

March 16, 2007

Permit Number: OCRM-07-504
Permit ID: 57187

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Carl D. Knight
215 Olde Harbour Ct.
Little River, SC 29566

LOCATION: On and adjacent to Intracoastal Waterway at 215 Olde Harbour Ct, Little River, Horry County, South Carolina.
TMS#: 130-12-13-024.

WORK: The work, as shown on the attached plans consists of constructing a bulkhead. The applicant seeks to construct a 6' x 77' vinyl bulkhead and connect it to the existing bulkhead on the adjoining property. The purpose of the proposed activity is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 31, 2007. For further information please contact the project manager for this activity, Tanitra S. Marshall at 843-238-4528.

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

NORTH SANTEE RIVER

at a location south of Barnyard Road in Kinloch Plantation, south of the City of Georgetown, Georgetown County, South Carolina (Latitude 33.19611°, Longitude 79.34528).

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, APRIL 9, 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed revisions consists placing fill material in and excavating waters of the United States to create a new inlet canal, install two new water control structures and create three new sub-impoundments within the existing Camp Main impoundment located adjacent to and northeast of the North Santee River. In detail, the applicant proposes to excavate a 50' X 5' X 5' inlet canal (46.2 cu. yds.) from the North Santee River to the existing, exterior dike. A 2' X 5' X 28' water control structure will be placed in the exterior dike (Site 1A on page 2 of 6) to connect inlet canal to an existing 2500' interior canal. The applicant proposes to utilize a track hoe situated in the marsh to excavate the canal. The excavated material will be temporarily stockpiled in the marsh. Once the canal is excavated, the spoil material will be relocated to the adjacent exterior dike and the marsh returned to original contour and allowed to re-vegetate naturally. The excavation of the inlet canal will result in the temporary impact of approximately 0.01 acres of freshwater wetlands.

The interior canal will be excavated to the approximate original depth of 5'. All material excavated from the interior canal will be placed on the adjacent dike/roadway. A new 2' X 4' X 24' spillway/riser structure will be placed between the interior canal and impoundment #3 to control water levels in the impoundment. In addition, the applicant proposes to fill 0.02 acres of wetlands to create 3 new sub-impoundments within an existing impoundment. In detail, the applicant proposes to place fill material in waters of the United States in order to extend the existing Newland Canal Dike 25.0' on both ends and connect it to the existing exterior dike to create a 110.0 acre impoundment (depicted as #4 on page 2 of 6). The applicant also proposes to extend the existing Settlement Islands Dike 25.0' on the southeast end to create a 90.0 acre impoundment (depicted as #5 on page 2 of 6) and a 110.0 acre impoundment (depicted as #6 on page 2 of 6). The purpose of the proposed work, according to the applicant, is to improve the existing impoundment to more effectively manage the area for waterfowl.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers
ATTN: REGULATORY DIVISION
1949 Industrial Park Road, Room 140
Conway, South Carolina 29526**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.03 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Refer to: P/N #2006-1090-311-P (REVISED)

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic Properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. Consultation of the National Register constitutes the extent of cultural resource investigations by the District Engineer, and he is otherwise unaware of the presence of such resources. Presently unknown archaeological, scientific, pre-historical, or historical data may be lost or destroyed by the work to be accomplished under the requested permit.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an *Environmental Assessment and/or an Environmental Impact Statement* pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Tommy Fennel at 843-365-4239.

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, APRIL 2, 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of construction of a 4' x 155' fixed timber pier walkway extending from highland to a 10' x 12' covered fixed pier head. An 8' x 20' floating dock will be constructed and attached to the pier head by a 4' x 25' aluminum gangway. A four pile boat lift will be constructed on the downstream side of the pier head. The purpose of the dock is for private recreational use.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The work shown on this application must also be certified as consistent with applicable provisions of the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certification is received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review. Persons wishing to comment or object to State certification must submit all comments in writing to the South Carolina Department of Health and Environmental Control at the above address within thirty (30) days of the date of this notice.

This initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.02066 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and

16 MARCH 2007

Refer to: P/N #SAC2007-407-2IG - P

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403) and Section 401 of the Clean Water Act (33 U.S.C. 1344), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the S.C. Department of Health and Environmental Control by

THE DANIEL ISLAND COMPANY
C/O NEWKIRK ENVIRONMENTAL, INC.
POST OFFICE BOX 746
MOUNT PLEASANT, SOUTH CAROLINA 29403

for a permit to construct a commercial marina and upland dry stack facility in the

WANDO RIVER

at a location, a waterfront tract of land on the west shoreline of the Wando River and south of the I-526 bridge on Daniel Island in the City of Charleston, Berkeley County, South Carolina.
(Longitude -79.90275° - Latitude 32.85429°)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, APRIL 16, 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of marina facility will include 341 wet slips in the Wando River providing moorage for boats from 35' to 115' in length, including, 288 designated commercial slips with finger piers and timber mooring piles, 20 designated public slips with finger piers and 33 designated commercial slips along approximately 3,894 linear feet of side tie moorage, a harbormaster's office, fuel and sewage pump out facilities, dry stack storage operation and floating breakwater. Upland support facilities will include bathrooms, showers, laundry facility and parking for a minimum of 183 vehicles. The dry stack storage operation will consist of one building for the storage of up to 208 boats 15' to 30' in length. Forklifts will be utilized to move boats to and from the building and the launch and retrieve pier in the marina basin. Proposed moorage for staging of boats for dry stack operations is approximately 530 linear feet (LF). No fill or excavation in wetlands or the Wando River is proposed with this application.

16 MARCH 2007

A more detailed description of activities proposed in the Wando River is provided by describing each of twelve individual dock structures (Docks A through L) comprising the marina facility.

Dock A: Dock A is a pile supported 65' by approximately 255' long concrete, fixed pier extending perpendicular from site uplands into the Wando River and terminating in a 120' x 45' pierhead.

The Dock A pier will include an approximately 30' wide dry stack launch and retrieve pier and an approximately 30' wide pedestrian access divided by a safety barrier and grade separation and bounded by 3.5' high safety railing around the perimeter. An approximately 5' wide utility corridor will extend the length of the pier. The dry stack launch and retrieve ramp will slope from elevation 8.0' to elevation 6.5' and include an approximately 45' x 60' forklift turnaround area at the marina basin. The pedestrian pier access will be level at elevation 8.0' and include benches, lighting and a 35 square foot covered pedestrian gathering area. A 12' x 80' ADA designed gangway will provide access to floating docks B through J.

Dock B: Dock B is accessed from Dock A via the previously described gangway. Dock B consists of a 95' x 90' floating dock area which serves as a landing for access to Docks B-J and accommodates the 28' x 70' Harbormasters office and a 24' x 230' fuel and sewage pump out dock. The fuel dock will provide two gas pumps and one diesel pump to serve transient and wet slip customers and an additional gas pump to service dry stack stored boats. Two sewage pump out stations will also be provided, one for dry stack stored boats and one for transient and wet slip customers.

Dock C: Dock C is accessed from Dock B and consists of a 10' x 65' shore perpendicular floating, staging dock within the dry stack launch and retrieve basin and 12' x approximately 530' of shore parallel floating, staging dock for dry stack operations.

Dock D: Dock D is accessible via the previously described Dock C and consists of a 12' x 160' shore parallel floating dock, a 12' x 519' shore perpendicular, floating dock and breakwater with thirteen 3' x 40' finger piers and one 8' x 40', terminal finger pier and fourteen mooring piles extending upstream (north) into the marina basin. Dock D provides wet slip moorage for twenty-seven boats 40' in length on the upstream side of the dock, side tie moorage of 519' on the downstream (south) side of the dock which is designated for four vessels 115' in length and side tie moorage of 160' on the landward (west) side of the dock for four vessels 35' in length.

Dock E: Dock E is accessible via the previously described Dock C and consists of a 10' x 465' shore perpendicular, floating dock with an 8' x 85' pierhead, ten 3' x 35' finger piers and eleven mooring piles extending downstream and thirteen 3' x 35' finger piers and thirteen mooring piles extending upstream. Dock E provides wet slip moorage for forty-nine boats from 35' to 40' in length and 85' of side tie moorage outboard of the pierhead for one vessel 85' in length.

Dock F: Dock F is accessible via the previously described Dock C and consists of a 10' x 505' shore perpendicular, floating dock with an 8' x 90' pierhead, thirteen 3' x 35' finger piers and thirteen mooring piles extending downstream and twelve 3' x 45' finger piers and thirteen mooring piles extending upstream. Dock F provides wet slip moorage for fifty-four boats from 35' to 45' in length and 90' of side tie moorage outboard of the pierhead for one vessel 85' in length.

Dock G: Dock G is accessible via the previously described Dock C and consists of a 10' x 585' shore perpendicular, floating dock with an 8' x 105' pierhead, thirteen 3' x 45' finger piers and fourteen mooring piles extending downstream and thirteen 4' x 50' finger piers and thirteen mooring piles extending upstream. Dock G provides wet slip moorage for fifty-four boats from 45' to 50' in length and 105' of side tie moorage outboard the pierhead for one vessel 85' in length.

Dock H: Dock H is accessible from the previously described Dock B and consists of a 12' x 665' shore perpendicular, floating dock with sixteen 4' x 50' finger piers and sixteen mooring piles extending downstream and thirteen 5' x 55' finger piers and fourteen mooring piles extending upstream. Dock H provides wet slip moorage for sixty-two boats from 50' to 55' in length.

Dock I: Dock I is accessible from the previously described Dock B via a 10' x 145' shore parallel, floating dock. Dock I consists of a 10' x 545' shore perpendicular, floating dock with an 8' x 135' pierhead, ten 5' x 60' finger piers and eleven mooring piles extending downstream and nineteen 5' x 65' finger piers and twenty-one mooring piles extending upstream. Dock I provides wet slip moorage for forty-one boats 60' to 80' in length and 135' of side tie moorage outboard of the pierhead for one vessel 115' in length.

Dock J: Dock J is accessible via the previously described Dock H and consists of a 12' x 900' shore parallel, floating dock and breakwater. Dock J provides approximately 1,400' of side tie moorage for eleven large vessels ranging in size from 85' to more than 115' in length.

Dock K: Dock K is accessed from site uplands approximately 700' upstream (north) of the primary marina access (Dock A) and approximately 200' upstream of the existing City of Charleston public dock. Dock K consists of a 20' wide fixed, shore perpendicular concrete pier extending approximately 5' to 10' beyond the shoreline, an 8' x 60' gangway and a 12' x 1,000' shore perpendicular floating dock and breakwater. Five 3' x 35' finger piers extend downstream providing wet slip moorage for eleven boats 35' in length. The remainder of Dock K provides approximately 1,400' of side tie moorage for ten large vessels from 85' to more than 115' in length. Dock K is also accessible from the existing city dock.

Dock L: Dock L is accessible from the previously described Dock K and consists of a 10' x 225' shore parallel floating dock and an 8' x 140' shore perpendicular floating dock with four 3' x 35' finger piers extending upstream. Dock L provides wet slip moorage for nine boats 35' in length. Dock L is also accessible from the existing City dock via a 3' x 15' gangway.

In summary, the proposed marina facility will provide dry stack storage for up to 208 boats, and 341 wet slips in the Wando River, including 288 designated commercial slips with finger piers and mooring piles, 20 designated public slips with finger piers and 33 designated commercial slips along approximately 3,894 LF of side tie moorage. A 24' x 330' floating dock will provide fueling and sewage pump out services and approximately 530 LF of 12' floating dock will provide moorage for staging of boats for dry stack operations. The marina will be equipped to accommodate vessels over 115' in length. The proposed facility will include a harbormasters office and, in addition to fuel and sewage pump out services, will provide potable water, electricity, telephone and cable to proposed slips in the Wando River. The Marina at Daniel Island is designed and will be operated in accordance with criteria for participation in the South Carolina Clean Marina Program.

16 MARCH 2007

The purpose of the proposed work as stated by the applicant is to construct and operate a commercial marina facility in the Wando River on Daniel Island, to provide boat moorage and marina services to the residents of Daniel Island and members of the general public. The existing City of Charleston Public Dock will continue to be utilized as a public, day use dock as will an additional 20 proposed slips to be accessible from the city dock.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers
ATTN: REGULATORY DIVISION
69A Hagood Avenue
Charleston, South Carolina 29403-5107**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project should not impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-groupers management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

16 MARCH 2007

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

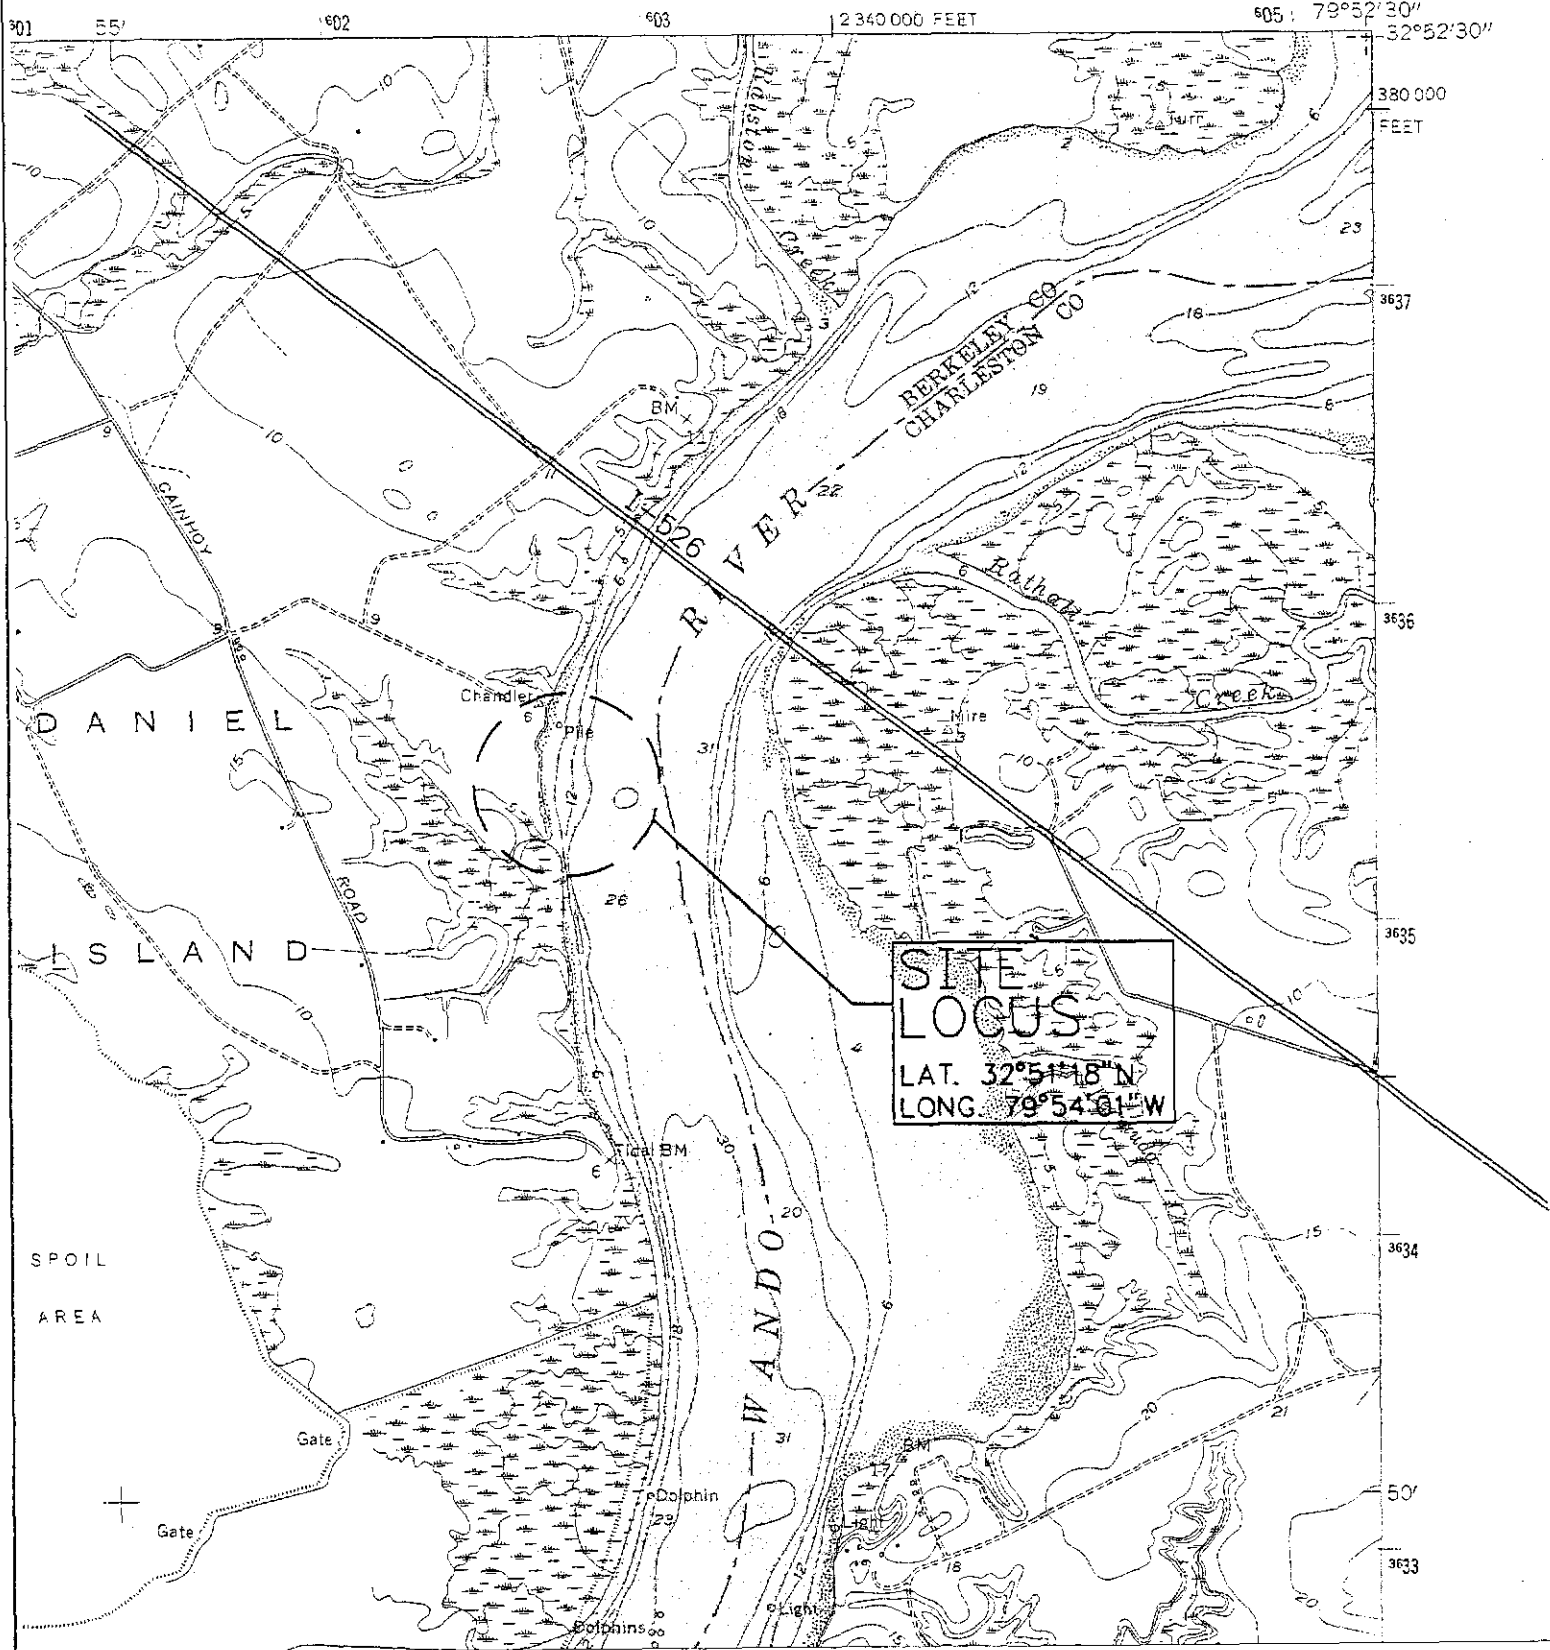

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Mary Hope Glenn at 843-329-8044 or toll free at 1-866-329-8187.
